Approved For Release 2001/09/05: CIA-RDP81-00361R000100030006-6

WASHINGTON, D.C. 20415

YOUR REFERENCE

OCT \$ 3 9072

TO HEADS OF DEPARTMENTS AND AGENCIES

I am writing to apprise you of our current situation and future prospects in the vital area of executive menpower resources.

From all indications, the Administration's proposal for a new Federal Executive Service is not likely to be passed by Congress in this session. Furthermore, there appears to be no likelihood that Congress will authorize an increase in the number of supergrade quota spaces available before next session, at the earliest.

This will make it essential for all of us to make a concerted effort to manage our present resources effectively. Therefore, I urge you to review carefully the supergrade positions established in your agency to assure that each is being utilized as efficiently as possible.

Every effort should be made to manage on a Department-wide or agency-wide basis the quota spaces now assigned to you by the Commission. Component parts of your organization should not be permitted to fill these positions routinely as they become vacant. In this manner, you will be able to recommend to the Commission the use of vacant supergrade positions in whatever portion of your organization you feel the need is greatest.

I also strongly urge you to consider restructuring vacant supergrade level positions so that they can be filled at grade GS-15, at advanced salary steps of that grade where appropriate.

Other alternatives evailable to you include avoiding the establishment of "Liputy" and "special assistant" positions at the supergrade levels. Continuing review of declining programs should also be emphasized to identify lungrions which can be consolidated and positions which are no longer needed.

13 you do not plan to fill a vacant supergrade position at this time-for whatever reason -- please identify this position for us in order that we they requestion this supergrade resource to a high Administration priority rogram until such time as you are ready to use it. This will permit us to get maximum use of our limited supergrade resources.

TRAMARAYOD COON REPARENT

Approved For Release 2001/09/05: CIA-RDP81-00261R000100030006-6ions where also urge you to avoid if at all possible requesting exceptions to the time-in-grade requirements of the Whitten Amendment. The severe shortage of quota spaces, and the continuing Congressional interest in the administration of the Whitten Amendment, require us to interpret the Amendment's "hardship" criterion very strictly.

I fully recognize that the current situation presents a severe challenge to senior managers at all levels. However, I am confident that, through our common effort, the most pressing needs of the Federal service will be met until legislative relief can be obtained. I know that I can count on your wholehearted cooperation in this effort.

Robert E. Hampton

Chairman
